

City of Marysville General Notes to be on Future Plans

1. The current State of Ohio Department of Transportation Construction and Material Specifications (ODOT) together with the requirements of the City of Marysville, Ohio shall govern materials and workmanship involved in improvements shown on these plans, except those specifications modified by the following specifications or construction details set forth herein.
2. All work is to be acceptable to City of Marysville officials. No work is to commence until arrangements have been made with the City of Marysville Engineer for inspection. All construction layout is to be provided by the Owner.
3. The developer/owner shall, prior to any construction operations, deposit with the City of Marysville, the total estimated cost for inspections.
4. The contractor shall notify the City of Marysville Engineer at least three working days prior to construction.
5. All pertinent Construction and Material Specifications are available on the City of Marysville web site. (www.marysvilleohio.org)
6. The contractor and subcontractor shall be solely responsible for complying with all federal, state, and local safety requirements. It is also the sole responsibility of the contractor and subcontractor to initiate, maintain, and supervise all safety requirements and programs in connection with the work.
7. The identity and location of all existing underground facilities known to be in the construction area has been shown on the plans as accurately as provided by the owner of the utility. The City of Marysville has no responsibility as to the accuracy or depth of the underground facilities as shown on the plans.
8. Investigations, location, support, and restoration of all existing utilities, appurtenances shall be the responsibility of the contractor.
9. Where potential grade conflicts might occur with existing utilities the contractor shall uncover the existing utility in advance of laying pipe in order that the Engineer may determine the exact elevation and make any necessary adjustments.
10. The contractor shall give notice to the Ohio Utilities Protection Service (Phone 1-800-362-2764) and to the owners of the utility facilities shown on the plan who are not members of a registered utility protection service. The contractor is responsible for coordinating the relocation of any utility as required by the plan with the owner of the affected utility.

11. All field tile broken during excavation shall be replaced with SDR 35 perforated pipe or connected to the storm sewer system.
12. All traffic control devices shall be furnished, erected, maintained, and removed by the contractor in accordance with the Ohio Manual of Traffic Devices for Construction and Maintenance Operations, published by ODOT, Bureau of Traffic.
13. The contractor shall repair or replace any or all existing signs, shrubs, fences, or other physical features damaged during the execution of this contract at his own expense. All repairs shall be to the satisfaction of the owner and the City of Marysville.
14. Any survey monuments or property corner pins disturbed during construction shall be replaced by a registered surveyor at the contractor's expense.
15. The contractor shall secure and pay for all permits and government fees, licenses, and inspections necessary for the proper execution and completion of improvements shown on these plans.
16. The contractor shall repair or replace any and all existing work damaged during or due to the execution of this contract at his own expense. All said work shall be to the satisfaction of the Owner and the City of Marysville.
17. The contractor shall clean adjacent streets on a daily basis if mud is tracked from vehicles visiting the site.
18. The contractor/engineer/owner shall provide asbuilt engineering plans for sanitary, street, storm sewers, and water line, at the completion of contract. Plans shall be submitted in hard copy and in electronic format.
19. Survey monuments shall be set at the completion of the contract, and a letter certifying that the work was done shall be provided to the City Engineer.
