Managing Household Hazardous Waste

There are four basic principals to keep in mind that will help in managing your Household Hazardous Waste:

1. Pre-plan for your projects. Buy the smallest amount needed to get the job done.
2. Buy a less hazardous alternative, such as baking soda and vinegar for cleaning.
3. Always read the label before buying a product to be sure it will meet your needs. (Keep the labels on all of the containers and carefully follow all the directions when using any hazardous product.)
4. Use all of the product for its intended use. You can also share or donate your leftover materials with someone else that may have a need for the unused product. (In many cases, even products that have been stored for many years can still be safely used according to the labeled directions.)

If you have Household Hazardous Waste products to dispose of, they can be taken to one of the three North Central Ohio Solid Waste District Household Hazardous Waste Drop Off Locations for a Fee. (See the inside of this brochure for more details.)

DON’T
Don’t dispose of materials into the storm sewer or septic system.
Don’t burn or bury leftover materials or containers.
Don’t mix materials together.

Latex Paint Management

1. Buy the Correct Amount
Be a wise consumer and buy only what you need. This will eliminate the need to store or dispose of leftover paint and it will save you money.

2. Use Left Over Paint
Use leftover paint on other projects or donate to a local organization.

3. Store Paint Properly
Cover the opening with plastic wrap and securely seal the lid. Store in a safe location where the paint will not freeze.

4. Disposing of Unusable Paint
Add kitty litter or sand to help dry the paint. After the paint is dry, it can be discarded with the household trash.

How to Locate Area Businesses Accepting Waste Oil, Auto Batteries & Tires For Recycling

Used Motor Oil:
Contact your local service stations or auto parts dealer to see if they accept motor oil for recycling. The best way to save oil for recycling is to funnel it into a clean plastic milk jug or other gallon container. Clearly mark the container as used motor oil. Most locations will require the used motor to be clean - No water, antifreeze or other fluids mixed with the oil.

Auto (Lead Acid) Batteries:
Most retail locations that sell auto batteries, also known as lead acid batteries (LAB), will take old auto batteries for recycling. Contact local auto parts and retail stores for details.

Safely transport your battery for recycling
1. Wear gloves when handling the battery.
2. Always keep the battery upright.
3. Place battery in a container or box to transport.

Tires:
Most retail locations that sell tires will recycle your old tires for a fee. Contact local reputable tire retail stores in your area for more information on accepted tires and cost.

For a complete list of local businesses accepting used oil, auto batteries and tires for recycling visit the North Central Ohio Solid Waste District’s website at: www.ncowaste.org

HOUSEHOLD HAZARDOUS WASTE DISPOSAL
For Residents of Allen, Champaign, Hardin, Madison, Shelby & Union Counties
